SUMMARY

Innovative and detail-oriented Software Developer with a strong focus on Flutter, mobile app development, and AI-driven user experiences. Passionate about transforming creative ideas into real-world applications, blending design, functionality, and intelligence.

WORK EXPERIENCE

Flutter Development Intern, Spectrum Software Solutions

Jun 2023 – Jul 2023

- Built responsive mobile apps with Flutter for both Android and iOS platforms.
- Reduced dev time by using a single codebase across platforms.
- Enhanced UI responsiveness through team collaboration and testing.
- Strengthened app architecture, improving code quality and maintainability.

Advanced Flutter Intern, Spectrum Software Solutions

July 2024 – Aug 2024

- Applied Riverpod and BLoC for efficient state management and scalable architecture.
- Engineered dynamic UI components and integrated REST APIs for smooth functionality.
- Enhanced user experience through fluid animations and performance optimizations.

Graphic Design Intern, G-Tec Computer Education

2019

- Created and edited visuals using Adobe Photoshop with professional precision.
- Collaborated with designers to produce brand-aligned, high-quality graphics.
- Refined visual storytelling and layout skills for impactful presentations.

EDUCATION

Bachelor of Engineering in Computer Science Engineering

Sep 2021 - May 2025

Anna University

- Specialized in software development and AI integration.
- Focused on system architecture and scalable solutions.

Vocational Higher Secondary(Plus Two) - Computer Science and IT

June 2019 - Mar 2021

Higher Secondary School

- Focused on programming fundamentals, data structures, and logic building.

TECHNICAL SKILLS

- **Programming Languages:** Dart, JavaScript, Java, Python, C , C++
- **Web Development:** HTML, CSS
- **Mobile App Development:** Flutter (Dart)
- **UI/UX Design:** Basic UI/UX principles,Prototyping (Canva, Figma basics)
- **CERTIFICATION:** Introduction to Data Engineering on Azure in Microsoft, Introduction to Generative AI in Microsoft , AWS Solutions Architecture job in Forage, Project Resource Management in LinkedIn
- **LEETCODE:** <https://leetcode.com/u/vijaymartin72/>

PROJECTS

- **Whatsapp App Clone** - Built a functional clone with real-time chat UI, contact list, and modern navigation using Flutter and Dart
- **Date Reminder Clone** - Develop get notifications for important dates using local storage and alert systems
- **Snapchat App Clone**
- **Personal Expense Tracker App-** Expense tracking app with filters, summaries, and local storage using Flutter.

LANGUAGES

- English (Fluent)
- Malayalam (Native)
- Tamil (Basics)
